

# SMA Coupling Nut (Quad Thread)

Amphenol Fiber Optic Products was a pioneer in developing the first industry standard fiber optic interconnect system by introducing the SMA Connector. The 905 series was the first fiber optic interconnect system to gain industry wide acceptance for Medical, Military, Industrial and Data Communications.

Today Amphenol Fiber Optic Products continues to support these markets with a wide variety of standard and custom SMA connectors and accessories.

The SMA connector family utilizes a threaded coupling nut system for mating and de-mating. The SMA Quad Thread coupling nut is an excellent choice for mating and locking SMA connectors to laser equipment.

Amphenol's long standing history and development of the SMA product ensures exceptional quality and long term reliability. We continue to support further development and improvement with our standard and custom product offerings.

## Features and Benefits

Precision Machined Stainless Steel Knurl Nut

Threaded metal coupling nut for maximum retention

Can withstand Autoclave and ETO Sterilization process

## Specifications

Raised Diamond Etching

Front OD; 8mm (.314"): Length 7mm (.275"):  
Rear OD; 7.5mm (.295")

## Applications

Medical Specialty

Data Communications

Industrial

Military

## Industry Compliance

RoHS compliant

Conform to TIA/EIA

## Ordering Information

Part Number	Description
905-5385	SMA COUPLING NUT, QUAD THREAD
